

SAFE + SOUND

Safe + Sound is a year-round campaign to encourage every workplace to have a safety and health program.

Safe + Sound Week is a nationwide event held each August that recognizes the successes of workplace health and safety programs and offers information and ideas on how to keep America's workers safe.

Safe and Sound Campaign

Why Participate?

Workplaces that implement successful safety and health programs can proactively identify and manage workplace hazards before they cause injury or illness, improving sustainability and the bottom line. Participating in Safe + Sound Week can help get your program started, energize an existing one, or provide a chance to recognize your safety successes.

OSHA has identified mental health and substance use disorders as priorities for employee health wellness. To this end, workplaces are encouraged to include these topics in their health and wellness program. Please consider providing outreach to your employees on these topics for your Safe + Sound event.
